

OrganoStart™ Pro

MIMETAS

Accelerate Your Drug Testing with Ready-to-Use Human Tissue Models

Enhance your research with our OrganoReady® models and OrganoTEER® device. Our ready-to-use, 3D human tissue models combined with real-time barrier function assessment enables precise, high-throughput drug toxicity evaluation. This seamless integration delivers both scalability and precision, letting you kickstart your experiments efficiently.

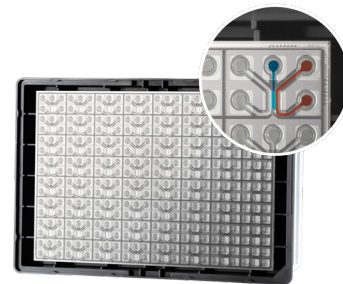

The package includes:

OrganoTEER® Standard package

Including:

- Laptop with Software
- 1x OrganoReady® Colon Caco-2 for installation*

4x OrganoReady®*

OrganoFlow® L
